

# Education services

## Comprehensive training to future-proof your business

We help partners stay ahead in the shift towards consumption-based, as-a-Service models with our vendor-certified and accredited learning services.

Our comprehensive training options enable partners to navigate the latest end-user behaviours and best practices, earn must-have certifications, and better anticipate end-user challenges for greater success in the competitive market.

Our training options are diverse, ranging from instructor-led classroom learning to digital learning and our unique multivendor labs.

### Instructor-led in-person and virtual training

3,000+ technical instructor-led classes per year, available in various languages and time zones

### Bespoke training

Multiple options including private classes, classes on your premise, customised content, or even a combination of all three

### Practice labs

30+ multivendor practice labs, including our **3D demo labs**

### Digital learning

2,000+ self-paced digital learning resources and certification pathways

## Why us?

We deliver innovative, blended learning solutions, covering **40+ countries** and **five languages** with a regular schedule of public instructor-led courses.

- Official **vendor-accredited** training centre with award-winning training
- Field-experienced, **certified instructors**
- **Dedicated labs** with 24-hour open access for each student
- **Flexible learning** in the classroom, remote, or onsite, with instructor-led options

## Instructor-led in-person and virtual training

Choose the mode of training that suits your schedule and preferences. If you prefer to learn in-person, our knowledgeable instructors run engaging training sessions and provide personalised attention and hands-on practice. If virtual suits you better, connect with our expert instructors through interactive online platforms.

## Bespoke training

Our customised programmes are tailored to your specific needs, whether you're an organisation looking to upskill your workforce, or an individual seeking personalised learning. Our expert trainers will design a programme for you that delivers maximum impact and results.

## Practice labs

Our interactive learning environments provide a safe space to apply your knowledge and gain hands-on experience. Through virtual simulations, cutting-edge software, and practical exercises, you can experiment in a setting that replicates the challenges you'll face in your field.

## Digital learning

Learn any time, anywhere through our comprehensive digital learning solutions. Access online courses, interactive multimedia modules, and educational apps, while benefitting from the flexibility of self-paced learning. You can also enjoy interactive elements, quizzes, and collaboration with fellow learners.

## How to access training
