Support in local language*

All communication with Palo Alto Networks TAC managed by Westcon support professionals in case of L3 incidents

Easily trackable ticket progress through our Westcon support online ticketing portal (available 24/7)

Multi-vendor skilled engineers for optimal support for multi-vendor networks

Extend your Support

In addition to your Westcon Support contract you can purchase the additional options below:

Call-in/Ticketing options for non-support covered incidents

SLA-based direct access to certified engineers to support you with questions/requests around your Palo Alto Networks estate

Flexible remote solutions to help you with any capability or capacity gaps connected to device maintenance

Support with security rule changes/expansions to react quickly & effectively to any strategy changes

Advice & support for BPAs including scoping & planning of connected professional services projects to support identified change requirements.

* Guaranteed in German, Spanish, French and English. All other languages are subject to availability.

Professional Services

Our experienced Palo Alto Networks certified engineers are here to help you fill any capacity and capability gaps along your end-users' IT security lifecycle

Expert engineers can help to clarify and specify customer needs and support finding the most suitable solutions.

Examples:

- SLR/BPA Results analysis and action plan creation*
- (End -customer) Workshop (e.g. for TRAPS set-up and rule design)

* Comparable but not identical to Palo Alto Networks Security Assurance offering - for more info contact your Westcon Account Manager

Defined and clearly specified solutions, designed to ensure optimal fit to customer needs and existing security stack.

Examples:

- System configuration
- Integration planning
- Change management support
- Multi-vendor system design and integration

Ensuring optimal availability, stability & necessary growth during the system's lifetime.

Examples:

- BPA Health Check: results analysis and action points definition and project realisation
- Change management support
- Configuration support
- Upgrade management

Supporting the end customer in integrating and activating the solution in the quickest way possible.

Examples:

- Rack & Stack (ETS)
- Installation
- System migration
- Configuration
- Go-live support

Managed Services

Our Proactive Care offering supports partners with the following services:

- ✓ Automated remote monitoring of IT security infrastructure
- ✓ SLA-based troubleshooting (including change management) to ensure optimal performance and availability
- ✓ Fixed monthly fee
- ✓ Option to include device cost in monthly payments – Technology as a Service (TaaS)

Why you should consider offering Managed Services:

Advantages to partners

Increase margin on your solutions and services

Continuously monitor customer infrastructure across its lifecycle

Create a renewable installed base and extend your upsell opportunities

Advantages to end-customers

Reduced costs, improved working capital and freed-up engineering resources onsite

Effective maintenance solutions for optimal system performance and availability

Anticipation and resolution of potential issues – effective reduction of liability risks

Westcon Financial Services*
