

Partnering with Westcon

Driving your Palo Alto Networks business... together

Grow your Palo Alto Networks business with Westcon

Benefit from partnering with Westcon – we are uniquely positioned to help you deliver value to your customers by:

- Holding Strata stock in our warehouses for quick dispatch across Europe
- Providing training that leads to certification
- Delivering regular sales and technical updates
- Supporting pre-sales activities to drive sales with your customers
- Offering a range of post-sales services such as installations and platform migration to ensure customer satisfaction
- Profiling customers to identify new business opportunities

We can help you fast track your path to revenue with Palo Alto Networks.

We can help you expand and scale your existing Palo Alto Networks business.

Westcon Support

Our Westcon Support offering is available to you with any Palo Alto Networks device and includes the services listed below:

First-class L1/L2 support – accessible via phone, email or web

Full management and control of L3 incidents by our Westcon support professionals

Easily trackable ticket progress through our 24/7 online ticketing portal

Multi-vendor skilled engineers for optimal support

Extend your support

In addition to your Westcon Support contract you can purchase the options below:

Call-in/ticketing options for non-support covered incidents

SLA-based direct access to certified engineers to support you with questions/requests

Flexible remote solutions to help you with any capability or capacity gaps

Support with security rule changes/expansions to enable you to react quickly and effectively

Professional services

Our experienced Palo Alto Networks certified engineers are here to help you fill any capacity and capability gaps along your end-users' IT security lifecycle

Expert engineers can help to clarify and specify customer needs and support finding the most suitable solutions

Examples:

- SLR/BPA Results analysis and action plan creation*
- (End -customer) Workshop (e.g.for TRAPS set-up and rule design)

Ensuring optimal availability, stability and necessary growth during the system's lifetime

Examples:

- BPA Health Check: results analysis and action points definition and project realisation
- Change management support
- Configuration support
- Upgrade management

Defined and clearly specified solutions, designed to ensure optimal fit to customer needs and existing security stack

Examples:

- System configuration
- Integration planning
- Change management support
- Multi-vendor system design and integration

Supporting the end-customer in integrating and activating the solution in the quickest way possible

Examples:

- Rack and Stack (ETS)
- Installation
- System migration
- Configuration
- Go-live support

Managed services

Our Proactive Care offering supports partners with the following services:

Automated remote monitoring of IT security infrastructure

SLA-based troubleshooting (including change management) to ensure optimal performance and availability

Fixed monthly fee

Option to include device cost in monthly payments – Technology as a Service (TaaS)

Why you should consider offering Managed services:

Advantages to partners

Increase margin on your solutions and services

Continuously monitor customer infrastructure across its lifecycle

Create a renewable installed base and extend your upsell opportunities

Advantages to end-customers

Reduced costs, improved working capital and freed-up engineering resources onsite

Effective maintenance solutions for optimal system performance and availability

Anticipation and resolution of potential issues – effective reduction of liability risks

Westcon Financial Services

Helping you to close deals quicker,
get paid faster and protect margins

Westcon simplifies financing, freeing up capital for future business investments*. Our expertly structured financing programme helps enhance your competitive position, making you not only the technology expert, but also the full-service solution provider with a competitive edge that meets the unique financial requirements of your end-customers.

- Robust variety of funding options
- Customisable to meet specific business budgets and requirements
- Flexible payment structures
