

Working from home

There is an increased desire to work from home. But are you correctly equipped and ready for the pitfalls? We can help you with the right solution for your remote working needs – from simple set up to executive home office.

Latest software

Ensure you always have the latest collaboration software on your devices.

Audio solutions

Finding the right audio solution is key, so you have the best sound despite any background noise.

Using video

Using video conferencing is key for you to collaborate with colleagues or external partners.

Finishing touches

It's not just the audio and video. Don't forget a comfortable chair and good lighting.

Remote working bundles

Simple set-up

Blackwire 3310 headset and EagleEye Mini camera instantly add business-quality audio and video collaboration.

Versatile home office

Voyager 4220 UC headset, Calisto speakerphone and EagleEye Mini camera offers the ease of multiple connection options.

All-day video conferencing

Voyager Focus noise-cancelling headset, Calisto 7200 speakerphone and EagleEye Cube camera allow the user to listen comfortably and move about during meetings.

Executive home office

Elara 60 series smartphone station and Studio USB video bar (Certified for Microsoft Teams) provide the most versatility and performance of all the Poly bundle options.

Now is the time to work remotely. Contact us for more information about the bundles or how to get started.
