

# Services

Extending Your Capabilities, Capacity and Coverage

# New Zealand Services Catalogue

Westcon-Comstor Services works with our resellers and vendors to discover, develop and deliver opportunities that provide greater strategic insight, richer margin and longer-term customer engagements through our decades of experience and unique in-house skillsets of engineers, support decks, certifications and global delivery models.

Our Services Strategy covers Security, Unified Communications & Collaboration, Data Centre, Internet of Things & Networking, with Cloud being at the centre of these technologies.

Globally our Services offering is represented by 4 pillars; Supply Chain Services, Professional Services, Support Services and Education Services.

## SERVICES PORTFOLIO

Our Services Strategy covers Security, Unified Communications & Collaboration, Data Centre, Internet of Things & Networking, with Cloud being at the centre of these technologies.

# Support Services

Our technical support capabilities are unique and distribution leading. We can provide you with the capability to deliver proactive monitoring support capabilities across multiple vendors and multiple technologies, so customers can focus on their business, not their technology.

Our Support Centre Services can also expand standard maintenance packages to include how-to support and remedial training onsite.

## SUPPORT LEVELS

Westcon-Comstor offers a range of 8x5 and 24x7 support offerings varying from level 1, level 2 telephonic and remote support options to onsite break/fix services nationwide.

Support requests can be logged as follows:

- 24x7 telephonic response for priority faults
- Centralised email for non-critical faults
- Online ticket submission for non-critical faults

Initial response to requests will vary depending on the associated service level agreement purchased.

This catalogue describes the various support options provided by Westcon-Comstor and the associated vendor products.

# Education Services

Westcon-Comstor can provide training focused on product launches, salesforce and channel enablement among other things and all of which includes solution and executive selling, certifications and associated skills development.

Westcon-Comstor Academy brings a comprehensive range of technical training programs, both certified & non-certified to you, extending your knowledge base and expanding your capabilities.

## WHY CHOOSE WESTCON-COMSTOR ACADEMY AS YOUR PREFERRED LEARNING PARTNER?

Certified Instructors with strong field experience, providing best practices advice on how to successfully implement or manage a specific solution.

Dedicated labs and full access for every student.

Flexible and customised learning which can adapt to your specific needs; courses can be delivered in a classroom or onsite.

Certification-Ready training to prepare you for Vendor Certification, both in learning and practical preparation.

# Professional Services

## SOLUTION DESIGN

We use the latest architecture standards, guidelines and site templates so our teams have the tools to create the best site designs possible.

## IMPLEMENTATIONS

Our technical engineering team will connect remotely to or be at a customer's facility where physical or advanced implementations will be executed. Startup implementation can be during production network, at maintenance windows or out of office hours.

## CONSULTANCY

We deliver business process consultancy that addresses problem resolution, solution validation & best solution advancement.

## MIGRATIONS AND UPDATES

Onsite or remote translation of actual settings to newer version or migration to new solutions with more advanced configurations.

## Westcon-Comstor Channel Services Engagement Process

- Reseller will nominate a suitable contact for Westcon-Comstor to liaise with for project documentation and service scheduling.
- A Statement of Work (SOW) is generated detailing the appropriate project deliverables and associated measurements, it also outlines the actual scope of the service bundle that has been ordered.
- Reseller reviews the scope and approves commencement of the project.
- Project initiation workshop is conducted and all pre installation/implementation detail is gathered and collated.
- Implementation is planned from this meeting once all pre requisites have been identified and met.
- Implementation conducted as per deliverables detailed in the SOW.
- Review all deliverables have been completed as per SOW and project completion sign off obtained.
- Service is invoiced.

# Supply Chain Services

## End-to-end value

### WHAT IS SUPPLY CHAIN SERVICES?

With more than 3 decades of IT distribution experience, Westcon-Comstor has built a unique network of logistical resources, capabilities and expertise. Westcon-Comstor Supply Chain Services provide vital end-to-end solutions to our resellers worldwide with 8 purpose-built logistics centres serving 100 countries.

### WHY SUPPLY CHAIN SERVICES?

Westcon-Comstor Supply Chain Services enable your staff to concentrate on more profitable work by assisting with time-consuming tasks such as offload system setup, testing and basic configurations, tagging, software updates and so much more.

Our Supply Chain Services include:

### HOW SUPPLY CHAIN SERVICES HELP RESELLERS:

- Drive Efficiencies through expedited deliveries and deployments, as well as project-managed global orders across multiple vendors and across multiple technologies.
- Extend Profitability by attaching additional services margin to product sales through the services we can deliver to your end users.
- Add Value by utilizing end to end supply chain services, in turn , allowing the reseller to focus on core business.
- Broaden Offerings with services, such as reverse logistics, tagging, configuration/ testing and storage that you can offer to your clients.
- Deliver CSR targets and reduce your organization's environmental impact by responsibly reusing and recycling legacy equipment.

# Westcon | Comstor

## Lifecycle Services

### LOGISTICAL SERVICES

Westcon-Comstor Logistical Services employ processes that ensure orders arrive when and where they are needed. We handle multi-tech and multi-vendor local, regional and multi-national rollouts to extend your capabilities, capacity and geographical reach.

Westcon-Comstor's Logistics Services include:

- Inventory management
- Third-party warehousing and logistics (3PL)
- Custom labelling / custom kitting
- Private label delivery and customised packing slips
- Specialized & secure shipping / delivery options
- Transportation management

### INTEGRATION SERVICES

Westcon-Comstor's Integration team ensures that your customers are satisfied and protected during system setup, testing, and basic configurations for installations. Our processes and methodologies provide the basis for services and task handling that instantly frees your staff to focus on core, profitable business.

- Tagging (Asset / RFID / UID)
- Staging services
- Component assembly and testing
- Software and firmware updates
- Configuration services
- Customer lab rental (long and short term)

# Supply Chain - Managed Rollouts

## What are Managed Rollouts?

With more than 3 decades of IT distribution experience, Westcon-Comstor has built a unique network of logistical resources, capabilities and expertise. Westcon-Comstor Supply Chain Services provide vital end-to-end solutions to our resellers worldwide with 8 purpose-built logistics centers serving 100 countries.

To stream line the customer rollout let Westcon-Comstor manage this for you. Westcon-Comstor Managed Rollouts will reduce double handling of CPE and on-site engineering costs, therefore increasing your margin.

## How do Managed Rollouts work?

- Customer purchases the equipment and stores this at Westcon-Comstor within our facilities in Auckland, equipment can be held for as long as required
- Partner requests units to be shipped, this can be 1 unit at a time or multiple units
- Westcon-Comstor Services team stages the units as per the customer requirements and prepares kit for deployment. Kit is then deployed in line with the timeline supplied
- Westcon-Comstor provides a report that is in line with the customer requirements

## Managed Rollouts Include

- Storage of CPE equipment till it is required onsite
- Pre-staging of devices, asset tagging & basic DOA testing prior to shipment
- Managed rollout of all devices to customers site
- Inventory reports on customer stock holding
- Provide reporting on serial numbers, mac addresses, tracking numbers

## How Managed Rollouts Help Resellers:

- Westcon-Comstor manages the multiple site rollout's on your behalf
- Customer is able to purchase all kit upfront and then take advantage of on-demand rollout
- Units arrive staged ready for rack and stacking
- Reduced engineer and freight costs
- Increase competitiveness
- Re-allocate highly skilled personnel to focus on more deployments
- Accelerate time to deployment

# E-Recycling and E-Destruction Services Overview Factsheet

## What is E-Recycling & E-Destruction Services?

With more than 3 decades of IT distribution experience, Westcon- Comstor has built a unique network of logistical resources, capabilities and expertise. Westcon-Comstor E-Recycling and E-Destruction Services provide vital end-to-end solutions to our resellers.

Westcon-Comstor will collect from your specified pick up and provide certification, that shows full and secure destruction and where possible recyclable goods turned in to Green Waste, saving from landfill equipment that is damaging to the earth.

## Why E-Recycling & E-Destruction Services?

Westcon-Comstor E-Recycling and E-Destruction Services enable you to offer your end user clean, green, safe certified recycling and/or destruction of end-of-life, old and replaced IT Infrastructure equipment. Everyone wants to leave a cleaner, greener footprint and now with Westcon-Comstor you can offer your customers a safe and reliable alternative to landfill dumping options.

The issue of e-waste going in to landfill is not just the concern about toxins leaching into the ground and ultimately the water table or the amount of space e-waste occupies. Research shows that using recycled materials (plastic, metals, etc) produces up to 80% less carbon emissions than processing virgin materials.

## How E-Recycling and e-destruction HelpS Resellers:

- A high rate of recycling – 95% to 98% of all materials from all e-waste.
- Regular detailed reporting and data management.
- A “Certificate of Recycling” for each batch/load where required.
- Relationship Management and Accountability. With Westcon-Comstor Services you have a single national point of contact to streamline communications and responsiveness and enhance accountability.
- Add value by utilising end to end supply chain services, in turn, allowing the reseller to focus on core business.
- Broaden offerings with services, such as reverse logistics, tagging, configuration/testing and storage that you can offer to your clients.

## CONTACT US AT WESTCON-COMSTOR SERVICES

Email: [services.nz@westconcomstor.com](mailto:services.nz@westconcomstor.com)  
Phone: 09 415 6220

Westcon-Comstor can provide safe and certified destruction and recycling on most electronic equipment. From servers to desktops, printers to laptops. Anything that is electronic can be processed and recycled or securely destroyed.

Call our NZ Services team for further information or a quote for destruction or recycling.

# Partner Hot Sheet Avaya Services

## AVAYA - GOLDSEAL SUPPORT

Westcon-Comstor Services are 100% channel centric & designed to support Partner's service offerings.

### Key Partner Benefits

Make more margin! Increased discount, for Avaya Authorised Partners, get up to 10% discount when buying GoldSeal services.

- No need to invest in a support capability - use Westcon-Comstor as your support Partner.
- 24x7 support coverage by local certified engineers.
- Access to Avaya for Level 3 support via Westcon-Comstor.
- Westcon-Comstor systems will provide insight into renewal dates and help partners manage them, to maintain and grow annual regular support income.
- Westcon-Comstor provides vendor escalation and maintains local ownership throughout the incident.

### Key Benefits at a glance:

- Avaya-certified engineers Technical Support Line
- Avaya Software Updates & Upgrades delivered as a part of GoldSeal Enhanced & Premium Maintenance
- Single contact number and clear escalation processes
- Direct access to Avaya for escalation requirements
- Automated renewal tracking built into your GoldSeal service
- Online incident tracking and email updates on ticket progress
- Onsite and Remote installation for Avaya products
- Deliver an end-to-end customer solution from product supply to an installed and supported deployment

### What Is Covered By Goldseal Support?

LEVEL	SUPPORT LEVEL	SOFTWARE	HARDWARE
Voice	24 x 7, Phone, Email, Remote Support	All Software updates	Return to Base
Voice + APR	24 x 7, Phone, Email, Remote Support	All Software updates	Advanced Parts Replacement Next Business Day

## What Service Level Agreements does GoldSeal Support offer?

SEVERITY LEVEL	SUPPORT DESCRIPTION	SUPPORT COVERAGE
Priority 1	The supported product is totally out of service with no acceptable work around, resulting in a loss of service affecting all users at a single site.	24 x 7 (Including public holidays)
Priority 2	The supported product is operating with severely reduced functionality, causing significant impact to the customer's business operations, or the loss of service impacting more than 25% of all users at a single site.	8am - 5pm Monday to Friday (Excluding public holidays)
Priority 3	The supported product is operating with reduced functionality, causing little or no impact to the customer's business operations, or the loss of service to less than 25% of all users at a single site.	8am - 5pm Monday to Friday (Excluding public holidays)

### AVAYA - PROFESSIONAL SERVICES

#### Avaya Installation Service

The Avaya GoldSeal Remote and Onsite Installation Service allows Partners to sell professional services.

#### What is available?

Westcon-Comstor Services offers the ability to remotely configure Avaya solutions. Alternatively an onsite service can also be offered.

- Pre-Configuration Planning – collection of information to deploy the solution
- Remote/Onsite Configuration

Installation services are based on the completion of the Westcon-Comstor Statement of Work document for the Avaya solution. Westcon-Comstor Services will work with the Partner to issue this document for the customer to complete when the request is received.

#### Westcon-Comstor – Your Support Partner

- Technical support
- Remote installation
- Onsite installation
- Renewals tracking

#### Key Service Benefits:

- Single price point that covers both Planning and Configuration stages.
- Westcon-Comstor provide an entire solution, price competitive hardware and also ensure that the solution is deployed according to the highest standard, based on Avaya best practice.
- Westcon-Comstor Services enables resellers to go to market with an end to end Avaya offering.
- Cost and time efficient deployment leads to higher customer satisfaction.
- GoldSeal reduces costs, resellers are not required to invest in highly skilled engineers – Westcon-Comstor has already made this investment for you.

## CHECK POINT CYBER SECURITY ADMINISTRATOR (CCSA) R80.10

### WHO SHOULD ATTEND?

Technical professionals who support, install, deploy or administer Check Point Software Blades.

### COURSE GOAL:

Provide an understanding of basic concepts and skills necessary to configure Check Point Security Gateway and Management Software Blades.

### PREREQUISITES:

- General knowledge of TCP/IP
- Working knowledge of Windows and/or UNIX, network technology and the Internet

### COURSE TOPICS:

- Introduction to Check Point Technology
- Security Policy Management
- Policy Layers

- Check Point Security Solutions and Licensing
- Traffic Visibility
- Basic Concepts of VPN
- Managing User Access
- Working with ClusterXL
- Administrator Task Implementation

Check [academy.westconcomstor.com/nz/](http://academy.westconcomstor.com/nz/) for more information

# CHECK POINT CYBER SECURITY ENGINEERING (CCSE) R80.10

## WHO SHOULD ATTEND?

Expert users and resellers who need to perform advanced deployment configurations of Check Point Software Blades.

## COURSE GOAL:

Validate your understanding and skills necessary to configure and optimally manage Check Point Next Generation Firewalls.

## PREREQUISITES:

- CCSA training/certification
- Working knowledge of Windows, UNIX, networking, TCP/IP, and the Internet.

## COURSE TOPICS:

- System Management
- Automation and Orchestration
- Redundancy
- Acceleration
- SmartEvent
- Mobile and Remote Access
- Threat Prevention

# CHECK POINT SECURITY MASTER (CCSM) R80.10

## WHO SHOULD ATTEND?

This course is for customers and partners who want to learn the advanced skills to troubleshoot and configure Check Point Security Gateway and Management Software Blades:

- System Administrators
- Security Engineers
- Network Engineers
- CCSEs seeking higher certification

## PREREQUISITES:

- CCSE
- General knowledge of TCP/IP
- Working knowledge of Windows and UNIX
- Working knowledge of network technology
- Working knowledge of the Internet

## COURSE OBJECTIVES AND TOPICS:

- Firewall-1 administration and infrastructure review
- How policy changes impact chain module behavior
- Identify management issues and problems with commands
- Use commands to troubleshoot NAT stages
- Configure Manual NAT to define specific rules
- Use commands to review and clear connections table
- Modify files to allow traffic through a specific cluster member
- Locate the source of encryption failures using commands
- Use commands to verify VPN connectivity
- Identify any potentially mis-configured VPNs
- Tune NIC performance
- Increase size and improve hardware performance
- Improve load capacity
- Tune the firewall rule base
- Reduce load on Rule Base application
- Improve network performance
- Improve logging efficiency
- Use IPS Bypass to manage performance
- Configure VPN Tunnel Interface (VTI)
- Configure Open Shortest Path First (OSPF)
- Identify the wire mode function by testing a VPN failover

# Sandblast Network (Zero-Day Protection Workshop) (One Day Course)

## GETTING A STEP AHEAD OF THE UNKNOWN

Zero-day and advanced persistent threats use the element of surprise to bypass traditional security, making these threats difficult to protect against—and very popular with hackers. Traditional sandboxing was designed to help with these types of threats, but cybercriminals have evolved their techniques, creating evasive malware that can avoid detection by many sandbox solutions. As a result, many organisations find

themselves taking reactive steps to counteract infection, rather than preventing it in the first place. To get ahead, enterprises need a multi-faceted prevention strategy that combines proactive protection that eliminates threats before they reach users, and state-of-the-art CPU-level exploit detection to expose even the most highly camouflaged threats.

## COURSE GOAL:

Provide an understanding of basic concepts and skills necessary to configure Check Point Security Gateway and Management Software Blades.

## COURSE TOPICS:

- Threat Anatomy
- SandBlast Threat Emulation
- SandBlast Threat Extraction
- ThreatCloud Emulation Service
- Deployment Scenarios
- SandBlast Troubleshooting

Check [academy.westconcomstor.com/nz/](https://academy.westconcomstor.com/nz/) for more information

## CHECK POINT SANDBLAST AGENT (One Day Course )

### WHO SHOULD ATTEND?

Technical professionals who support, install, deploy or administer Check Point Software Blades.

### COURSE GOAL:

Provide an understanding of endpoint security threats and learn the necessary skills to deploy, install, and manage SandBlast Agent.

### PREREQUISITES:

- CCSA

### COURSE TOPICS:

- Introduction to Endpoint Security Threats
- SandBlast Agent
- SandBlast Agent for Browsers

## CHECK POINT SANDBLAST MOBILE 2.59 (One Day Course )

### WHO SHOULD ATTEND?

Technical professionals who support, install, deploy or administer Check Point Software Blades.

### COURSE GOAL:

Provide an understanding of basic concepts and skills necessary to configure mobile devices in the SandBlast Mobile solution.

### PREREQUISITES:

- CCSA

### COURSE TOPICS:

- SandBlast Mobile Overview
- SandBlast Mobile Components
- Administration of SandBlast Mobile
- Threat Collection
- Data Collection, Storage, and Distribution

## Cloud Security CloudGuard AWS

(One Day Course )

### WHO SHOULD ATTEND?

Technical professionals who support, install, deploy or administer Check Point Software Blades. COURSE GOAL: Provide an understanding of basic concepts and skills necessary to configure Check Point vSEC products for use in Amazon Web Services.

### COURSE GOAL:

This one day workshop provides an understanding of basic concepts and skills necessary to configure Check Point CloudGuard products for use in Amazon Web Services.

### PREREQUISITES:

- CCSA
- Basic knowledge of networking
- 6 months to 1 year of experience with Check Point products recommended

## Cloud Security CloudGuard Azure

(One Day Course )

### WHO SHOULD ATTEND?

Technical professionals who support, install, deploy or administer Check Point Software Blades. COURSE GOAL: Provide an understanding of basic concepts and skills necessary to configure Check Point vSEC products for use in Microsoft Azure.

### COURSE GOAL:

This one day workshop provides an understanding of basic concepts and skills necessary to configure Check Point CloudGuard products for use in Microsoft Azure.

### PREREQUISITES:

- CCSA
- Basic acknowledge of networking
- 6 months to 1 year of experience with Check Point products recommended

# Partner Hot Sheet Westcon-Comstor Migration

## MOBILISE YOUR FILE & OBJECT DATA

### MIGRATE. REPLICATE. SYNC

Westcon-Comstor Migration Services, powered by Datadobi provides Enterprise-Class Software for Heterogeneous File & Object Migration & Replication. This Service enables partners to offer data mobility software & services in an uncomplicated & highly profitable way.

The DobiMiner Suite of products includes;

- **DobiMigrate** - On a per project basis, migrates data, objects and attributes between NAS, File-system, or Object storage required to accurately and safely present that data to users and applications as the new production system.
- **DobiSync** - Copy and synchronise data between NAS, File-system, or Object storage for rapid recovery.
- **DobiReplicate** - Copy data between NAS, File-system or Object storage for rapid recovery and failover.

**Key Benefits at a glance:**

- Platform agnostic software: in family or not!
- Complete end-to-end solution
- Simple to use graphical interface
- Flexible to changing customer requirements
- Work flow oriented
- Scales to any size of migration

### CENTERA END OF LIFE?

Move forward with Westcon-Comstor Migration, powered by Datadobi!

### DOBIMINER BENEFITS

 <p>Easy and fast deployment</p>	 <p>Meta-data based discovery Of your data</p>	 <p>Group and track multiple systems simultaneously. Plan and organize switch over windows based on estimated time of completion</p>	 <p>MD5 check of every single file</p>
 <p>Migrate the data: SMB 1.0, 2.x, 3.x and NFS 3.0; Consolidate multiple systems simultaneously</p>	 <p>Maintain control with throttling and scheduling of network load and server load</p>	 <p>Switchover with support for creation of shares, exports and user mapping; Transfer of Share ACLs and Export Access Rights</p>	 <p>Workflow oriented views allow you to monitor. Accurate and real-time progress reporting via GUI</p>

# Partner Hot Sheet IBM Services

## IBM - PROFESSIONAL SERVICES

### IBM storage services scope

#### Storwize V7000/V5000 SAN Implementation

SAS / iSCSI / Fibre Channel connect Pricing applies for up to 1x controller, 2x expansion shelves and 2x Fibre Channel Switches (if Fibre connection is required).

#### Scope

- Project Workshop
- Rack and Cabling
- Firmware upgraded
- Initial Configuration IP address, RAID sets and LUN configuration
- Engineering testing
- Present LUN's / Volumes to up to 3x hosts
- Fabric Zoning (for Fibre attached storage)
- iSCSI configuration (for iSCSI connected storage)
- As Built Documentation

#### Storwize V7000 / V5000 SAN Installation

SAS / iSCSI / Fibre Channel Pricing applies for up to 1x controller and 2x expansion shelves and 2x Fibre Channel Switches.

#### Scope

- Project Workshop
- Rack and Cabling
- Firmware upgraded
- Initial Configuration IP address, RAID configuration

### IBM staging services scope

- Staging services are delivered out of Westcon's Auckland based Integration Centre.
- Average lead time for the service is 3 days from delivery from warehouse to the Integration Centre.

- Assembly is defined simply as physical components installed into the base unit - this DOES NOT include any firmware updates, QC, DOA check.

## Palo Alto Networks – Education

Equip yourself with the latest security skills on next-generation firewall with Palo Alto Networks training, from the security experts at Westcon Academy. Westcon-Comstor are an Authorised Training Centre (ATC) for Palo Alto Networks, delivering the following courses.

- **UPDATED FIREWALL 9.0 ESSENTIALS: CONFIGURATION AND MANAGEMENT (WGAC-PAN-210)** Enhance your understanding of how to configure and manage Palo Alto Networks next-generation firewalls.
- **NEW FIREWALL 9.0: OPTIMISING FIREWALL THREAT PREVENTION (WGAC-PAN-214)** Enhance your understanding of how to better configure, manage, and monitor PAN-OS® threat prevention features.
- **NEW PANORAMA 9.0: MANAGING FIREWALLS AT SCALE (WGAC-PAN-220)** Gain in-depth knowledge about how to configure and manage your Palo Alto Networks® Panorama™ management server.
- **NEW FIREWALL 9.0: TROUBLESHOOTING (WGAC-PAN-330)** Learn how to troubleshoot the full line of Palo Alto Networks next-generation firewalls.
- **TRAPS 4.2: INSTALL, CONFIGURE, AND MANAGE (EDU-281)** Palo Alto Networks® Traps™ Advanced Endpoint Protection prevents sophisticated vulnerability exploits and unknown malware-driven attacks. Successful completion of this two-day, instructor-led course helps prepare the student to install Traps in basic configurations.
- **TRAPS 4.2: DEPLOY AND OPTIMISE (EDU-285)** Palo Alto Networks® Traps™ Advanced Endpoint Protection prevents sophisticated vulnerability exploits and unknown malware-driven attacks. Successful completion of this two-day, instructor-led course should prepare the student to deploy Traps in large-scale or complex configurations and optimise its configuration
- **TRAPS: CLOUD SERVICE OPERATIONS (EDU-290)** Palo Alto Networks® Traps™ Advanced Endpoint Protection prevents sophisticated vulnerability exploits and unknown malware-driven attacks. Successful completion of this two-day, instructor-led course helps prepare the student to configure the Traps Management Service and to install Traps onto endpoints.
