

# Announcing APC's new, interactive energy-saving Smart-UPS.

## Intuitive alpha-numeric display:

Get detailed UPS and power quality information at a glance—including status, about and diagnostic log menus in your choice (depending on model) of up to 5 languages.

## Configurable interface:

Set up and control key UPS parameters and functions using the intuitive navigation keys. On rack/tower convertible models, the display rotates 90 degrees for easy viewing.

## Energy savings:

A patent-pending "green" mode achieves online efficiencies approaching 99 percent, reducing heat loss and utility costs.

## If you want Legendary Reliability inside, it had better say APC outside.

What do you get when you combine 25 years of Legendary Reliability with the latest in UPS technology? Introducing the new APC Smart-UPS range of interactive, intuitive, and energy-saving UPSs, designed to protect critical server and network equipment from power threats and downtime.

### New APC Smart-UPS: Smarter, Easier, Greener

Thanks to millions of dollars in research, APC can proudly claim that only the new Smart-UPS features the unique battery life expectancy predictor, telling you the exact month and year for battery replacement. Precision temperature-compensated charging extends battery life; unique power meter function monitors energy usage; and a patent-pending "green" mode boosts online efficiencies up to 99 percent, saving on utility costs. Plus, the interactive LCD provides detailed status, configuration and diagnostic information previously available only via software.

When every cost matters and performance is critical, insist on the more intelligent, more intuitive APC Smart-UPS. Now more than ever, the name on the outside guarantees reliability on the inside: APC Smart-UPS.

Only APC offers the most technologically advanced, user-friendly features and guaranteed reliability you need to protect your critical data and equipment. Look for APC on the outside to ensure Legendary Reliability on the inside.
