

Stay safe, connected
and secure

Jabra PanaCast

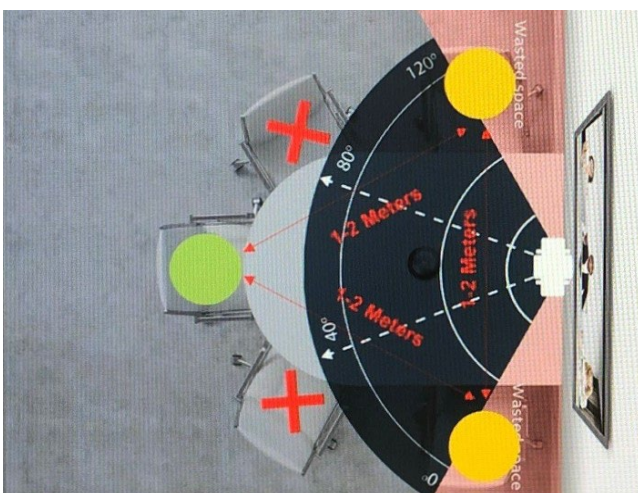

Premium quality video solution perfect to maintain
social distancing

Jabra PanaCast offers wall-to-wall coverage of almost any space thanks to three 13-megapixel cameras and a patented real-time video stitching technology. This unique 180° field of view means meetings are still on the table while maintaining the requested safe distance.

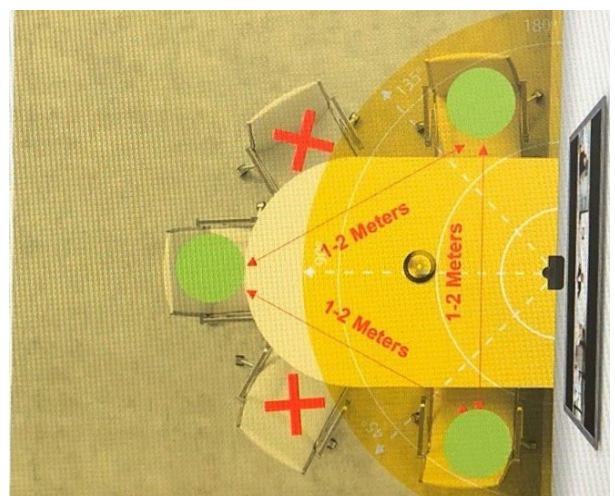

People will remain safe and everyone is included in the video image, improving the effectiveness of the meetings with a uniquely natural, immersive experience. You can offer PanaCast to your customers at a special price, with an additional 15% discount till 30 September.

Standard 120° view

Panoramic 180° view

 Occupied Seats and captured in the camera view

 Empty Seats

 Occupied Seats but not captured in the camera view
